

P E R G O L A S

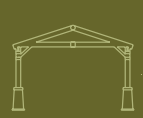

Create your outdoor living space.

Pergolas can do much more than bring all of your outdoor elements together, they bring families and friends together. They create an attractive focal point on your deck or grounds – an environment that begs to be lived in. Nothing you can do to your home can, so quickly, easily and affordably, produce such a visual impact while adding permanent value.

Building your dream outdoor space can now be a reality.

Our Outdoor Room Specialists can help you:

- **PLAN** – Define your outdoor living space and come up with a plan and budget to suit your style
- **DESIGN** – Create a unique room specific to your needs and help select products to work for your plan
- **INSTALL** – Work with professional designers and contractors for a successful implementation

Wood Pergolas made from Douglas Fir

Architects & engineers consistently use Douglas Fir as a structural lumber for its dimensional stability & superior strength-to-weight ratio.

Douglas Fir is more dimensionally stable than Cedar. Douglas Fir is also a renewable resource with annual forest growth exceeding harvest.
